ERIC LIGHTFOOT

BACKGROUND

Eldon, a cheerful halfling merchant, crossed paths with Seraphina, a determined aasimar soldier, in the bustling city of Baldur's Gate. Their love was swift and intense, kindled during the tumultuous times of Seraphina's quest against Zariel, the Archduchess of Avernus.

After a year of bliss, duty called Seraphina back to the front lines, leaving Eldon with a promise that she would return once her mission was accomplished. However, the passage of 20 years has not lessened Eldon's hope or love for Seraphina.

Their son, named Eric Lightfoot, grew up surrounded by stories of his mother's bravery and tales of her ongoing quest. His connection with magic became apparent early on, a testament to the celestial blood flowing through his veins. Eric patiently awaits his mother's return, driven by a deep-seated desire to meet her and explore the world that she so bravely roamed.

When Eric's magical powers began to manifest, around his 18th year, Eldon made a difficult decision. Concerned for his son's safety and recognizing the need for proper guidance, Eldon decided to send Eric to Baldur's Gate. In the care of one of Seraphina's dearest friends, a wise and nurturing cleric named Illyria Moonshade, Eric was to develop his burgeoning abilities and discover the extent of his magical potential.

Seraphina, in her quest, sought a celestial artifact known as the "Eternal Radiance," a powerful relic said to have the potential to weaken Zariel's grasp on Avernus. The artifact's location remains a mystery, leaving Eric with a dual purpose: mastering his sorcerous abilities and uncovering the clues that might lead him to his mother, all while embracing the wonders and challenges of the world around him.

RACIAL TRAITS

- **Celestial Resistance.** You have resistance to necrotic damage and radiant damage.
- **Darkvision.** You can see in dim light within 60 feet of you as if it were bright light and in darkness as if it were dim light. You discern colours in that darkness only as shades of grey.
- **Healing Hands.** As an action, you can touch a creature and roll a number of d4s equal to your proficiency bonus. The creature regains a number of hit points equal to the total rolled. Once you use this trait, you can't use it again until you finish a long rest.
- **Celestial Revelation.** When you reach 3rd level, choose one of the revelation options below. Thereafter, you can use a bonus action to unleash the celestial energy within yourself, gaining the benefits of that revelation. Your transformation lasts for 1 minute or until you end it as a bonus action. Once you transform using your revelation below, you can't use it again until you finish a long rest.
 - **Radiant Consumption.** Searing light temporarily radiates from your eyes and mouth. For the duration, you shed bright light in a 10-foot radius and dim light for an additional 10 feet, and at the end of each of your turns, each creature within 10 feet of you takes radiant damage equal to your proficiency bonus. Until the transformation ends, once on each of your turns, you can deal extra radiant damage to one target when you deal damage to it with an attack or a spell. The extra damage equals your proficiency bonus.
 - **Radiant Soul.** Two luminous, spectral wings sprout from your back temporarily. Until the transformation ends, you have a flying speed equal to your walking speed, and once on each of your turns, you can deal extra radiant damage to one target when you deal damage to it with an attack or a spell. The extra damage equals your proficiency bonus.
- **Lucky.** When you roll a 1 on an attack roll, ability check, or saving throw, you can reroll the die and must use the new roll. Once per short-rest.

FEATS

- **Fey Touched.**
Your exposure to the Feywild's magic has changed you, granting you the following benefits:
Increase your Intelligence, Wisdom, or **Charisma** by **1**, to a maximum of 20.
You learn the **misty step** spell and one **1st-level** spell of your choice. The 1st-level spell must be from the divination or enchantment school of magic. You can cast each of these spells without expending a spell slot. Once you cast either of these spells in this way, you can't cast that spell in this way again until you finish a long rest. You can also cast these spells using spell slots you have of the appropriate level. The spells' spellcasting ability is the ability increased by this feat. Spell chosen: Sleep.

A creature you touch regains a number of hit points equal to **1d8 + 4** (your spellcasting) ability modifier. This spell has no effect on undead or constructs.
